**FFN's 4 Pillars Define the Post-Fracture
Care Multidisciplinary Clinical Pathway**

Multidisciplinary care
of the acute fracture
episode, addressing
frailty as well as the
fracture itself

Excellent rehabilitation
to recover function,
independence and
quality of life, starting
immediately but
continued long term

Reliable secondary
prevention after every
fragility fracture,
addressing falls risk as
well as bone health

Formation of
multidisciplinary
national alliances to
promote education and
policy change that
enable the clinical
pillars

In collaboration with
